

Boosting efficiency & patient care with Cubiko

We're using Cubiko's latest feature - *Care Prompts*! Care Prompts seamlessly integrates with Best Practice to:

- ✓ Deliver key patient insights straight to your appointment book
- ✓ Provide instant access to verified eligibility information

- ✓ Reduce admin time by eliminating manual data entry
- ✓ Pinpoint opportunities for better patient outcomes

The screenshot displays the Cubiko interface with a table of upcoming appointments. A button labeled 'Send Care Prompts' is highlighted. Two pop-up windows are shown: one for selecting a practitioner and another for viewing patient details.
