Everything you need to know about the new Chronic Condition Management announcements

# Acknowledgement of Country

In the spirit of reconciliation, Cubiko, MediCoach, Best Practice and Medical Business Services acknowledge the Traditional Custodians of country throughout Australia and their connections to land, sea and community. We pay our respect to their Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples today.

Gaagal by Miimi and Jiinda

# Housekeeping

This session is being recorded. A copy of the recording will be emailed to all registrants after the session.

This webinar is approved for RACGP CPD. Practitioners attending live and who have provided their RACGP member number will have their CPD hours automatically uploaded.

If you share the recording with others at your practice, and they're a practitioner they can also claim CPD for the recording by quick logging it via their RACGP CPD Home.

Questions? Drop them in the Q&A tab at the bottom of your screen and we'll answer them during the session.

# Meet our presenters

**Chris Smeed**  
CEO & Founder of Cubiko

**Riwka Hagen**  
Founder of Medical Business Services

**Jessica White**  
Head of Commercial &  
Government at Best Practice

# How Confident Are You?

☐

**Very confident**

Ready for July 2025 implementation

☐

**Not confident**

Need significant guidance

☐

**Somewhat confident**

Some questions remain

☐

**What's GPCCMP?**

First introduction to the changes

# Topics Today

Better patient care  
Enhanced health outcomes

Operational Efficiency  
Streamlined workflows

Financial Optimisation  
Sustainable practice revenue

Implementation Path  
Clear transition steps

# What is changing

## Old Plan

GP Management  
Plan (GPMP)

**\$164.35**

+

Team Care  
Arrangement (TCA)

**\$130.25**

## New Plan

New GP Chronic  
Condition  
Management Plan  
**\$156.55**

## Old Review

GP Management  
Plan (GPMP) Review

**\$82.19**

+

Team Care  
Arrangement (TCA)

Review

**\$82.10**

## New Review

Review of  
GP Chronic Condition  
Management Plan  
**\$156.55**

# What is changing

Equal fees for creation and reviews

No annual plan rewrites needed – just quarterly reviews

Referral letters replace TCA forms

MyMedicare patients use registered practice only

# What stays the same

Same eligibility (chronic condition 6+ months or terminal)

Same allied health service allocations (5 individual, 10 Aboriginal and Torres Strait Islander)

Same clinical judgment determines patient suitability

Same bulk billing incentives and co-claiming restrictions

# Better patient care

Enhanced health outcomes  
One Living Document

**“55% of patients with a GPMP didn’t receive even one review in 12 months”**

MBS Review Taskforce – General Practice and Primary Care Clinical Committee Report (Phase 2, 2018)

# Sarah's story

Meet Sarah – 65, with diabetes and arthritis requiring complex care coordination

## Old way

- GP creates GPMP in January
- Waits to coordinate TCA with physio and dietitian
- TCA finally completed in March
- First allied health visit in April
- Plan sits static until next year's rewrite

## New Way (Living Document)

- GPCCMP created in one visit in January
- Immediate referrals to allied health
- April review: Plan updated as diabetes improves
- July review: Arthritis flares, plan adapts
- 10997 nurse support (FTF & telephone) to set lifestyle goals and to increase movement
- October review: New goals added as fitness improves

Result: One living plan that grows with Sarah, no annual rewrites needed

# The MBS now clearly specifies: "reviews can be conducted once every 3 months if clinically relevant."

② Chronic conditions don't wait

② Evidence-based frequency

② Better outcomes, fewer crises

# Transition a patient

## Check Eligibility

3 months since 721/723/732

## Create new GPCCMP

Use 965/392 (F2F) or 92029/92060 (video) 965 unlock the keys to the GPCCMP process

## Maintain Continuity

New Referrals

## Clinical Decision

Assess if transition is clinically relevant for patient's care

## Verify MyMedicare

Confirm Registration status for service access

# MyMedicare and Bulk Billing

## MyMedicare Requirements

Patients registered with MyMedicare must access GPCCMP through their registered practice only.

This secures patient retention for chronic care and prevents service access at other practices.

## Non-MyMedicare Patients

Can access GPCCMP services at any General Practice but should be with usual GP.

## Bulk Billing

GPCCMP items eligible for single bulk billing incentives  
Included in expanded Bulk Billing Practice Incentive Program (November 2025)

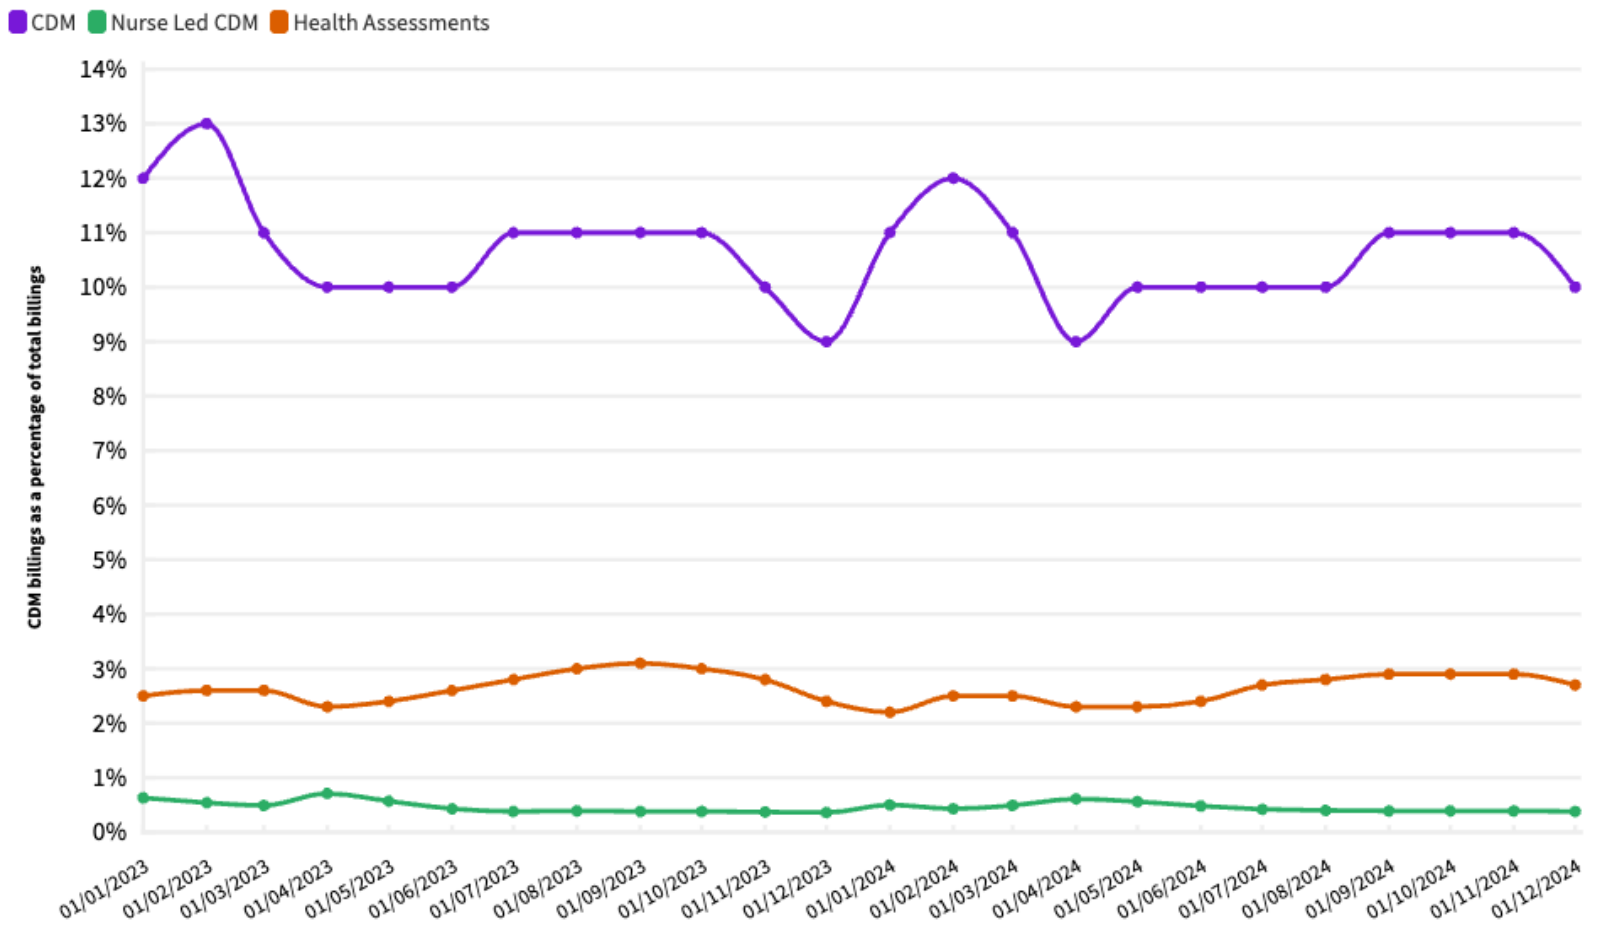

# Financial Optimisation

Improved practice revenue

CDM billings as a percentage of total billings

GPMP (721) + TCA (723) +

## Featured Resource

# Free CDM to CCM billings forecast tool

We know the shift from CDM to GPCCMP can feel like a big change. That's why we created this tool: to give you clarity, confidence, and a simple way to see how the changes might affect your practice.

Try it out

1

**Step 1: Configure Your Practice**  
Set up your practice characteristics for accurate calculations

Provide essential information about your practice to ensure all calculations reflect your specific operational context and requirements.

 **Practice Setup**  
Configure your practice characteristics for accurate billing calculations

[Need Help?](#)

2

**Step 2: Select the Right Analysis Tool**  
Choose the analysis approach that best fits your needs

Each tool is designed for different scenarios and provides specific insights to help you make informed decisions about your practice's billing strategy.

 **Individual Patient**  
Analyze billing impact for single patient scenarios

 **Practice-Wide**  
Model impact across entire practice with multiple patient groups

 **Time & Margin Tool**  
Detailed time allocation and cost analysis

 **Private Billing**  
Compare GPCCMP with private consultation scenarios

# Coming to Cubiko

## New items numbers for your new CCMP workflow

### Chronic Condition Management

The Australian Government will be ceasing Chronic Disease Management (CDM) items and introducing new, streamlined Chronic Condition Management Plan (CCMP) items from 1st July 2025. New metrics below can be used to identify how many patients need to be transitioned from legacy CDM plans to the new CCMP items from 1st July 2025. Within each metric, a patient list is displayed. Most notably, if a patient has an existing CDM plan, a Practitioner can review the Move CDM to CCMP (965) list, which shows patients who may be eligible to transition to a CCMP in order to continue managing those conditions under the new framework. Please read the tooltips for detailed information about eligibility criteria for each list. Please see the MBS for more details about billing periods and for guidance. Cubiko provides resources for practices to support them during this transition – head to our [GPCCMP Home](#).
